MAJJI VIJAYENDRA

+91 63006 38396 — vijayendramajji22@gmail.com — LinkedIn — GitHub

PROFESSIONAL SUMMARY

Computer Science Engineering student with a strong foundation in **software engineering, full-stack development, REST APIs, databases, and debugging**, seeking an **SDET Intern** opportunity. Experienced in developing web applications, integrating frontend and backend systems, working with REST APIs and databases, and identifying and resolving application issues. Strong interest in **software testing, API testing, E2E testing, unit and integration testing, test automation, and software quality**. Comfortable using modern **AI-assisted development tools** while independently understanding and validating generated code.

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, Java, SQL
Web Technologies: HTML, CSS, React.js, Node.js, Express.js
Backend & APIs: REST APIs, JSON, HTTP Methods, API Integration, Authentication Fundamentals
Databases: MongoDB, MySQL
Developer & Version Control: Git, GitHub, VS Code, Postman
AI & Developer Tools: ChatGPT, GitHub Copilot, Cursor, Windsurf, Antigravity, Google AI Studio, Snitch.ai, AI-Assisted Development, Prompt Engineering
Software Engineering: Requirements Analysis, Technical Documentation, Version Control, Problem Solving, Software Debugging

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science Engineering **2023 – 2027**
Parul Institute of Engineering and Technology, Parul University

PROJECTS

ORWIN GROUP – Academic Research & Publication Services Website Live Demo
React.js – JavaScript – Node.js – Express.js – MongoDB – REST APIs

- Designed and developed a responsive full-stack corporate website for **ORWIN GROUP**, featuring multidisciplinary services, structured navigation, and optimized user experiences across desktop, tablet, and mobile.
- Developed interactive **service, career, contact, and enquiry workflows** using React.js with responsive and user-focused interfaces.
- Built **REST APIs** using Node.js and Express.js for form validation, data processing, and database operations, with MongoDB for persistent data storage.
- Developed an **admin dashboard** for managing website content, enquiries, career applications, and quote requests, with authentication and authorization for protected features.
- Used **Git and GitHub** for version control and project development, while focusing on reliable application workflows, error handling, and maintainable code.

Janu Collection – E-Commerce Website Live Demo
React.js – Node.js – Express.js – MongoDB – JavaScript

- Developed a full-stack e-commerce platform for product browsing, category management, orders, and administrative operations.
- Built frontend components and backend **REST APIs** for product and order management.
- Integrated MongoDB for storing, retrieving, and managing application data.
- Developed an admin dashboard for managing products, orders, and platform content.
- Integrated secure online payment functionality and handled different user and transaction workflows.
- Debugged issues across the **frontend, backend, API, and database layers**.

CERTIFICATIONS

- **Become a Full-Stack Web Developer Learning Path** – LinkedIn Learning
- **React Essential Training** – Udemy

ACHIEVEMENTS

- Completed cohort participation and incubation training at **PIERC**, gaining exposure to startup development, entrepreneurship, product development, and business strategy.
- Secured startup funding under the **Student Startup and Innovation Policy (SSIP)** for an e-commerce startup initiative and contributing as a **Co-Founder**.
